Annual Report
2019-2020

Acknowledgments

In 2004, Carnegie Mellon and Qatar Foundation began a partnership to deliver select programs that will contribute to the long-term development of Qatar. For 15 years, we have shared a mission: to provide a world class education to students in Qatar.

Carnegie Mellon University in Qatar thanks **His Highness Sheikh Tamim Bin Hamad Al Thani**, Amir of the State of Qatar, for his leadership and commitment to progress and education.

We also express our deep appreciation to **His Highness the Father Amir Sheikh Hamad Bin Khalifa Al Thani**, **Her Highness Sheikha Moza bint Nasser**, Chairperson of Qatar Foundation, and **Her Excellency Sheikha Hind Bint Hamad Al Thani**, Vice Chairperson and CEO of Qatar Foundation, for their vision and leadership.

We are Carnegie Mellon

Our Vision

Carnegie Mellon University will have a transformative impact on society through continual innovation in education, research, creativity, and entrepreneurship.

Our Mission

To create a transformative educational experience for students focused on deep disciplinary knowledge; problem solving; leadership, communication, and interpersonal skills; and personal health and well-being.

To cultivate a transformative university community committed to:

- a. attracting and retaining diverse, world-class talent;
- b. creating a collaborative environment open to the free exchange of ideas, where research, creativity, innovation, and entrepreneurship can flourish; and
- c. ensuring individuals can achieve their full potential.

To impact society in a transformative way—regionally, nationally, and globally—by engaging with partners outside the traditional borders of the university campus.

Sixteen years after it was first established, Carnegie Mellon University in Qatar continues to stand as a global beacon of educational opportunity.

Today, the role of CMU-Q is more important than it ever has been as a result of humanity's response to the COVID-19 pandemic. The world is currently seeking solutions to the challenges that we face in areas such as health care, education, policy and science. In these uncertain times, I am confident that CMU-Q students and faculty will help build a brighter tomorrow.

While the past year has certainly been unique, I am proud of the way the CMU-Q community came together to persevere and thrive. Thanks to these collaborative efforts, 86 outstanding students graduated as part of the Class of 2020, bringing the total number of CMU-Q alumni to 935 Tartans.

A focus on innovative learning has always defined CMU-Q, and this year is no different. Not only did we shift 125 CMU-Q courses to remote learning in only two days, we also introduced

15 new micro courses. Taught by professors from our main campus, they covered topics that typically lie outside CMU-Q offerings, including artificial intelligence and society, blockchain, and computational medicine.

Our success to date would not be possible without the support of the Qatar Foundation, and the founding vision of **His Highness the Father Amir, Sheikh Hamad Bin Khalifa Al Thani, Her Highness Sheikha Moza bint Nasser, and Her Excellency Sheikha Hind Bint Hamad Al Thani.** I continue to be deeply grateful for this dynamic partnership.

It has been a year unlike any other, and this Annual Report details many accomplishments in which we can all take pride. I invite you to explore its pages as we look ahead to what the next year will bring.

Farnam Jahanian
President, Carnegie Mellon University

From
the President

From the Dean

Welcome to the Carnegie Mellon University in Qatar
Annual Report 2019-2020.

I have been a faculty member at Carnegie Mellon University for 30 years, and the dean of the Qatar campus since 2017. Over the decades, I have seen how higher education adapts as the times change, and how technology has challenged many of the ways we deliver a university education.

These challenges dwarf in comparison to the COVID-19 pandemic. I know that the pandemic has touched every person on the planet in ways both big and small, and those of us in higher education are no exception. My deep gratitude goes out to those on the frontlines, and my heart goes out to all those who were afflicted or lost someone to the disease.

The CMU-Q *Annual Report 2019-2020* is the story of how our community contributed to an academic year full of academic innovation, accomplishment and enthusiasm. There is much to celebrate, and I encourage you to learn more about our achievements this year.

This report is also the story of how our small community faced a challenge that comes along once in a century, and how we united around a single goal: to provide a quality education for our students. And our students have likewise risen to the challenge. I am exceptionally proud of their creativity and determination.

As we reflect on the academic year of 2019-2020, it is clear that we are resilient because of our connections. We have risen to the challenges of the pandemic because of hundreds of dedicated and resourceful people: our faculty, students, staff, alumni, Qatar Foundation partners, Education City colleagues, the CMU faculty, staff and leadership, and our supportive partners in Qatar's academic, government and industry sectors. Thank you.

Michael Trick
Dean, Carnegie Mellon University in Qatar

Our Alumni

Since our first class graduated in 2008, nearly 1000 men and women have completed their undergraduate education at Carnegie Mellon University in Qatar. As they build their careers, we follow their successes, connect them to one another, and encourage them to mentor the next generation of CMU-Q students.

The 86 graduates in CMU-Q's Class of 2020 were scheduled to cross the stage at a formal ceremony, but the pandemic's social distancing restrictions called for a creative solution. Instead, CMU-Q honored the class at a series of virtual events, which included a senior celebration and the formal conferral of degrees for Carnegie Mellon graduates worldwide.

“ Right from our orientation we were present and ready to take adventures on. Today, we are present with each other, despite the circumstances. I'm excited to see a world where our presence contributes to positive change. ”

A Year of Accomplishments

The first graduating class at CMU-Q was in 2008, and each year our alumni network grows in both numbers and achievements. In the last year, here are just a few of our alumni accomplishments.

Series A funding

A startup that began as a student project raised \$2.5 million in Series A funding. **Haris Aghadi** (Information Systems 2014) and **Abdulla Al-Khenji** (Information Systems 2015) launched the physician booking platform, Meddy, in 2016. In response to COVID-19, they added tele-health services that include video medical consults and a symptom checker.

Made in Qatar hand sanitizers

Mohammed Al-Matwi (Business Administration 2015) started the first perfume factory in Qatar in 2017, earning him the silver medal for Best Startup at the 2019 Reyada Awards. In response to COVID-19, Al-Matwi shifted his business focus to personal disinfectants—including hand sanitizers—for the Qatar market.

Forbes Magazine “30 under 30”

Sabih Bin Wasi (Computer Science 2015) and **Rukhsar Neyaz** (Computer Science 2015) were selected for the North American *Forbes* “30 under 30” list. They, along with **Jiyda Moussa** (Information Systems 2015) and **Musab Popatia** (Computer Science 2016), have created Stellic, an academic planning tech startup.

“20 women on the move in 2020”

Entrepreneurs **Maryam Al-Naemi** (Information Systems 2018) and **Min Kyung Kang** (Biological Sciences 2017) were selected for the “20 women on the move in 2020” list for Doha Learning Days. The list was compiled by WISE to recognize influential women in Qatar.

DFI's Short of the Week

Doha Film Institute (DFI) launched its new Short of the Week screening series with “Al-Johara,” a film by **Nora Al-Subai** (Computer Science 2008). The film has been screened at the Ajyal Youth Film Festival, the Sarajevo Film Festival, and Festival de Cannes.

ISCRAM Best Paper

Umair Qazi (Information Systems 2018) and his fellow researchers were awarded Best Paper by the Information Systems for Crisis Response and Management (ISCRAM) Association. The study, which began as Qazi's senior honors thesis, analyzed the usefulness of social media images to rapidly assess damage during a disaster.

Qatar Film Competition

Abdulrahman Alfayad (Computer Science 2018) created the first Qatar 48-Hour Film Challenge. More than 200 film enthusiasts tackled the task of creating a five-minute film over 48 hours.

First place, Girls Can Innovate, QITCOM 2019

Roda Al-Hor (Information Systems 2017) was part of the winning team of female innovators in the Girls Can Innovate competition at the 2019 Qatar IT Conference and Exhibition (QITCOM). Her team created a one-stop shop app for abayas and branded clothing.

IdeaCamp 2019

Yasir Khan and **Abdul Wasay** (both Information Systems 2018) took first place in IdeaCamp 2019, a Digital Incubation Center program and part of the Ministry of Transport and Communications. More than 250 teams applied for the IdeaCamp program, which included training, mentoring and rehearsal sessions over several months.

Class of 2019 One Year Later

In May 2019, 78 young men and women completed their undergraduate degrees at CMU-Q and began their careers. In the year since they graduated, the members of the Class of 2019 have made significant strides in a myriad of fields.

Platinum Education Excellence Award

Aisha Fakhroo (Biological Sciences 2019), received a platinum medal from **His Highness the Amir Sheikh Tamim Bin Hamad Al Thani** at the 13th annual Education Excellence Award ceremony.

Best Demo Paper, Honorary Mention

Shaden Shaar (Computer Science 2019) co-authored a paper on a system to analyze propaganda techniques in the news. The paper received honorary mention by the Association for Computational Linguistics.

Global opportunity

Although majoring in business administration, **Haris Syed** was also interested in technology. At CMU-Q, he built an impressive interdisciplinary resume and after graduation, he was recruited for EY's robotics process automation division in Houston.

“ I felt very prepared when I joined EY. During our one-week training program with the best of the best from different universities in the US, I felt I could step through the door and do whatever they do. ”

Interdisciplinary career path

As a computer science student, **Zeina Darwiche** planned to pursue programming after graduation. Instead, she stepped into the business realm and joined KPMG Qatar to consult on digital innovation projects.

“ Aside from our knowledge, the character of a CMU graduate is important. The people at KPMG appreciate how we try to ask the right questions and broaden our perspective. ”

Graduate studies

With a degree in biological sciences, **Khalid Al-Naemi** has decided to pursue graduate studies at McGill University. Bolstered by a prestigious scholarship from Qatar University (QU), he will study genetic mycology, and eventually return to Qatar to teach and research at QU.

“ I'm at the tip of the iceberg and it's a very deep discipline that I am still learning. But I have my CMU work ethic, and the drive and motivation to inspire future students to pursue science. ”

Non-profit organization

As a student, **Al-Dana Al-Mohannadi** was drawn to the human side of information systems, such as how technology can improve the quality of life for people with disabilities. She joined Mada Center after graduation as an ICT accessibility researcher.

“ I never wanted a corporate job, I wanted to find ways I could help people. CMU-Q helped me with the confidence to take on a position like this. ”

Networking and Mentorship

For our students, graduation is just the beginning of a new relationship with CMU-Q. Our alumni remain closely connected to us, keeping us up-to-date with their personal milestones and career successes. Throughout the year, they return to CMU-Q to network with and mentor a new generation of students.

“At CMU, we are asking a fundamental question: How do we prepare the next generation for a future of work that is always changing?”

Farnam Jahanian
President, Carnegie Mellon University
Qatar alumni reception
November 2019

Special reception with President Jahanian

At a special reception for CMU-Q alumni, **Farnam Jahanian** outlined his vision for re-imagining the student experience. The reception was also an opportunity for alumni to network with local business leaders, Carnegie Mellon leadership and faculty members from CMU-Q.

CarnegieApps Hackathon mentors

At the eighth edition of CMU-Q's CarnegieApps Hackathon, 10 alumni returned to mentor the teams during the intense, 24-hour competition. Most of the alumni mentors themselves participated in CarnegieApps Hackathon while they were students.

Dinner with Twelve Tartans

Our alumni returned to campus to share their experiences and encourage our students as they begin their careers. The annual Dinner with Twelve Tartans also included a speed networking segment to introduce newer students to the graduates.

Munich alumni gathering

Carnegie Mellon alumni from both the Qatar and Pittsburgh campuses gathered in Munich to meet and network with current CMU-Q students. The students were exploring the booming innovation entrepreneurship and tech sector in Munich.

Tartan Talks

Tartan Talks is an opportunity for current students to learn about life after graduation from alumni from each academic program. This year, CMU-Q hosted three Tartan Talk events.

“I developed friendships here that I think will last a lifetime. I have this network now, which consists of people, honestly, all over the world.”

Zaid Haque
Information Systems 2012
Senior Program Manager, Microsoft

Milestone class reunions

In January, graduates celebrating milestone class reunions reconnected with one another, as well as faculty and staff, at an event hosted by **Michael Trick**. Graduates from the classes of 2018, 2014, and 2009 were marking their one-, five-, and ten-year reunions, respectively.

Career networking

CMU-Q alumni frequently return to campus for networking events like Careers Platform, Professional Services Career Day and information sessions. Representing their employers, these alumni share their work experiences, guide students and provide information about internships and employment.

Tarnival alumni tent

The annual CMU-Q Tartan carnival is a favorite event for alumni, who return to network with one another and reconnect with the university. There were 85 alumni who attended Tarnival 2019.

Our Students

Our student community is at the heart of all we do at Carnegie Mellon University in Qatar. During the admission cycle each year, we seek out applicants who are motivated and eager to learn. Together, our enrolled students form a global-minded community that is enthusiastic, encouraging and supportive.

Events for Pre-College Students

Each year, we introduce nearly 2,000 high school students to Carnegie Mellon University in Qatar. A slate of workshops, competitions and learning programs inspire curiosity and exploration in the fields of business, science and technology.

Experience CMU-Q

Experience CMU-Q is a one-day workshop to explore study and career options in different CMU-Q programs. Nearly 250 students attended the October and January sessions.

Summer College Preview Program

A total of 72 students participated in SCPP 2019, an intensive three-week program that introduces high school students to the programs offered at CMU-Q.

“When I attended SCPP in 2012, it gave me a sense of direction and made me realize that what I wanted more than anything was to become a Tartan.”

Maryam Al Naemi

Class of 2018
Keynote speaker | SCPP 2019 closing ceremony

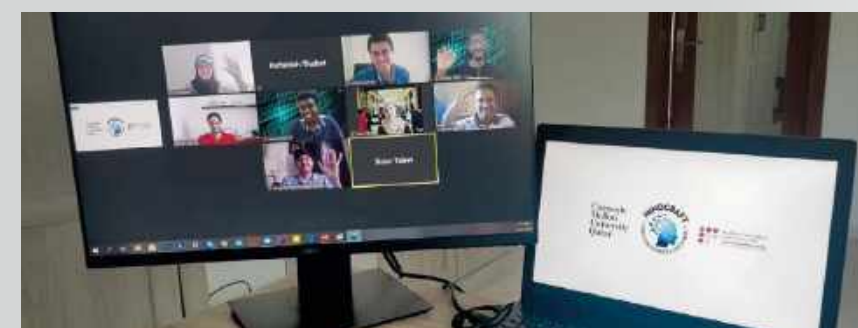

Pi Day Mathematics Competition

The fifth annual math contest drew 126 teams from across Qatar. The top four teams were from the American School of Doha, Doha British School, and two from DPS Modern Indian School.

Botball

The Lebanese School of Qatar came first in a field of 17 teams at the 16th Botball competition. The annual contest challenges students to program a robot to maneuver through a game board of obstacles and challenges. Doha Secondary School came in second place.

Minecraft Virtual

Three months after the pandemic started, CMU-Q launched its first virtual outreach program. Minecraft Virtual is an online reimaging of the popular Minecraft workshop that introduces students to the concepts of computer science.

first-years
admitted under
Early Decision

For each applicant to Carnegie Mellon, we look at more than grades: we consider the whole student. Through this careful process, we select an incoming class of curious and motivated students who will support and challenge one another.

Recruitment for the Class of 2024

With application numbers up by 42%, the admission process for the Class of 2024 was exceptionally selective. We participated in Education City visits to more than 40 schools in the country and took part in Discover Education City, a two-day collaborative event.

Our admission team also travels as part of the Education City roadshow to meet with prospective students and share with them the unique experience of studying in Qatar.

Early Decision

CMU-Q admitted 21 students for Early Decision, the largest group since the university began the process in 2016. More than half were Qatari nationals, with a total of eight nations represented.

“Today’s world needs solutions for problems that are not confined to only one field of study.”

Layal Al-Alami

Class of 2013
Commercial Project Manager, Siemens
Keynote speaker | Early Decision Dinner

“Allow me to reassure each one of you, we selected you because you have talent, work ethic, creativity and drive, and we believe you will thrive at CMU-Q.”

Michael Trick
Convocation | Class of 2023

Qatar Foundation Grant Program for new CMU-Q students

Qatar Foundation introduced a need-based grant program for CMU-Q students of all nationalities entering the Class of 2023. Grants of up to the full cost of attendance were offered, based on financial circumstances. The grant program was extended for the Class of 2024, and will support a diverse and competitive student body.

Marhaba Tartans

Nearly 150 newly admitted students and their families logged in to a virtual welcome session to meet the faculty, staff, students and graduates of the university.

Financial Aid

Financial aid options are a vital component of a diverse, competitive and strong CMU-Q student community. In 2019-2020, there were several types of financial support available for our students:

- Amiri scholarship, Ministry of Education and Higher Education
- Sponsorship from a national organization
- Qatar Foundation need-based grant
- Qatar Foundation financial aid
- Qatar Foundation scholarship
- Carnegie Mellon University in Qatar scholarship
- FAFSA loans for U.S. citizens

Organizations that sponsored CMU-Q students

- Amiri Diwan
- Aspire Zone Foundation
- Embassy of the State of Kuwait
- Ministry of Administrative Development, Labour and Social Affairs
- Ministry of Education and Higher Education
- Ministry of Interior
- Qatar Airways
- Qatar Armed Forces
- Qatar Chemical Company
- Qatar Foundation
- Qatar National Bank
- Qatar Petroleum
- Sidra Medicine

Academics

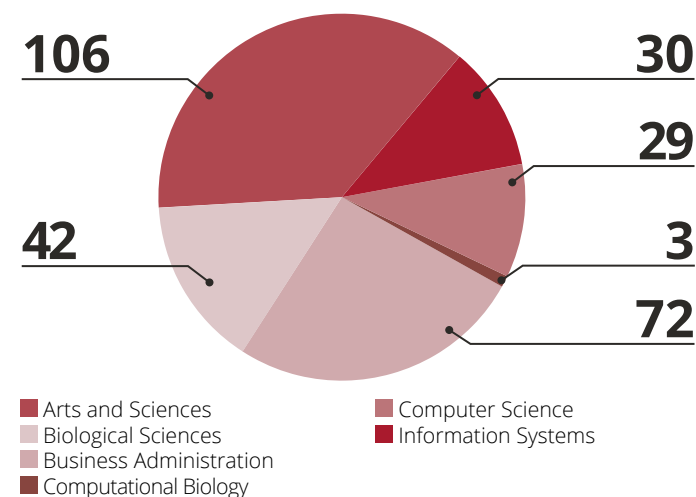

For decades, Carnegie Mellon has been at the forefront of educational science, and this history was crucial when the challenges of the pandemic arose. A strong collaboration of CMU-Q experts in technology, education and subject areas ensured that students continued to learn and grow, even in exceptional circumstances.

Academics at CMU-Q

At Carnegie Mellon, we begin with a broad introduction to the liberal arts and sciences during the first semesters. Students then focus on major core classes in the middle semesters, and they deepen and broaden their scope in the last semesters through advanced electives.

Courses offered

Minors were offered in 15 different subjects

- Arabic Studies
- Biological Sciences
- Business Administration
- Cognitive Neuroscience
- Computational Biology
- Computer Science
- Economics
- English
- Global Systems and Management
- History
- Information Systems

Education during a pandemic

The COVID-19 pandemic spurred a swift move to remote delivery halfway through the spring semester. CMU-Q completed the full transition within two days of the official directive by the Qatar government.

Initially, the focus was to replace in-person lectures and maintain the continuity of learning objectives. A task force of CMU-Q technology and educational experts guided the move of 125 courses to virtual delivery.

As the university adjusted, faculty members worked closely with CMU's Eberly Center for Teaching Excellence and Educational Innovation to ensure students would have an exceptional learning experience.

“The faculty and the programs will be stronger having gone through this. Our faculty members have had to think carefully about what goes in their courses and how they all fit together.”

Michael Trick

“I miss CMU, but apart from that, online classes are perfect. We can talk to professors and friends face to face, ask questions and get feedback.”

Muhammad Ali Raza
Class of 2023

Our Faculty

CMU-Q faculty members are experts in their fields and dedicated to undergraduate education. Faculty members provide individualized attention and focused instruction so that all students can reach their potential.

- **Kira Dreher**, assistant teaching professor, English
- **Simon Faulkner**, assistant teaching professor, chemistry
- **Agustín Indaco**, assistant teaching professor, economics
- **Jasmine Kirby**, instruction and engagement librarian
- **Ezzohra Moufid**, lecturer, French studies
- **Deepa Nair**, assistant teaching professor, history
- **Veli Safak**, assistant teaching professor, economics
- **Varun Sharma**, assistant teaching professor, marketing
- **Jeff Squires**, assistant teaching professor, English
- **Patrick Walsh**, assistant teaching professor, philosophy

Meritorious Teaching Awards

In a campus first, CMU-Q selected two faculty members to receive the 2019-2020 Meritorious Teaching Award. **Lauren Burakowski** and **Nui Vatanasakdakul** were recognized for going beyond expectations to contribute to student learning.

Micro courses

The Qatar campus offered an extensive slate of micro courses throughout the academic year, first in hybrid format and then in remote mode to comply with pandemic restrictions. Taught by professors from main campus, micro courses offer CMU-Q students a sampling of the myriad areas of study at CMU. Three micro courses are equivalent to one semester course.

Micro courses for 2019-2020

- Basics of cryptocurrencies, blockchains, and applications, **Nicolas Christin**
- Basics of food science, **Gloria Silva**
- Bilingualism, **Erik Thiessen**
- Biology for life, special topics, **Daniel Brasier**
- Blockchains in industry, **Divakaran Liginlal**
- Business acting, **Geoffrey Hitch**
- Impacts of AI: AI and ethics, **David Danks**
- Impacts of AI: AI and society, **Molly Steenson**

42
biological sciences
courses

71
students

77
alumni

Biological sciences students at CMU-Q study the Mellon College of Science curriculum that emphasizes problem-solving, communication, and analytical skills. Students learn to follow their curiosity, explore hypotheses, and contribute in a meaningful way as young scientists and researchers.

Fifth year scholar

Nahin Khan, who completed his degree in biological sciences in 2020, was selected for the Carnegie Mellon Fifth Year Scholar Program. Based at the main campus, the program provides a small number of exceptional students the opportunity to take an extra year to enhance their undergraduate education.

Elizabeth W. Jones Award

Dona Ferdinando, a 2020 biological sciences graduate, was awarded the Elizabeth W. Jones Award for Excellence in Undergraduate Research in Experimental or Computational Biology. The award was given by the Department of Biological Sciences at Carnegie Mellon's home campus in Pittsburgh.

Precision medicine symposium

Ihab Younis spoke at the first symposium for genomics in clinical practice in Qatar. This collaboration between HBKU's College of Health and Life Sciences and the Qatar Council for Health Practitioners brought together geneticists, researchers, technicians and health care professionals to share perspectives on precision medicine.

“CMU changed my passion and my future goals entirely, and helped me choose the field I have pursued in my master's and PhD studies.”

Safa Salim

Biological Sciences 2017
PhD student, Biological and Biomedical Sciences, HBKU

Student summer research

SRI

Six CMU-Q students were selected for Summer Research Institute 2019: **Vincent Adiong**, **Ayah Al-Ansari**, **Laila Assami**, **Mahnoor Fatima**, **Thamanna Muhammed Hashir** and **Ayah Salameh**. SRI is an immersive molecular biology and biochemistry research experience at the Mellon College of Science in Pittsburgh.

QBRI

CMU-Q students **Fajer Al-Marzooqi**, **Noora Al-Mohannadi** and **Zenab Siddig** were selected for the fifth annual Summer Research Program at Qatar Biomedical Research Institute, which provided intensive laboratory experience in the areas of diabetes, neurological diseases, and cancer.

SPRINT

Two rising seniors were selected for the first Summer Program for Research and Internship, a 10-week research opportunity at a lab outside of CMU-Q. **Ayşe Haruka Açıkbaş** worked in the Ettensohn Lab for Developmental Regulatory Genomics at CMU's main campus, while **Weilin Li** went to the Central European Institute of Technology (CEITEC) in Brno, Czech Republic.

Business Administration

72
business administration
courses

147

469
alumni

Business administration students at CMU-Q learn quantitative decision-making, our pioneering approach to undergraduate business education. With an emphasis on analytics and leadership development, students are prepared for the challenges of the global business landscape.

McKinsey Case Competition

The student-led Carnegie Consulting Club organized the McKinsey Case Competition, the first consulting competition of its kind in the region. Six teams competed, including participants from Qatar University and Texas A&M University at Qatar. The CMU-Q team of **Mohammad Shahmeer Ahmad, Mariyam Amir, Omar Naim, Faiha Sahirah** and **Muhammad Ahmed Zahid** ultimately won.

“Carnegie Mellon is not just an education, it’s a full experience. As a BA grad, you have all of these different aspects that you can shape into your career in the corporate world.”

Asma Al-Kuwari
Business Administration 2011
Head of Digital Experience/Digital Content Services
Qatar National Library

Thought leadership during a pandemic

Qatar Stock Exchange webinars

The Qatar Stock Exchange invited CMU-Q faculty members **Fuad Farooqi, Agustín Indaco** and **John O’Brien** to lead webinar sessions on portfolio diversification and how behavioral biases affect investors. More than 100 members of the community joined each webinar.

Hack COVID-19

George White spearheaded CMU-Q’s participation in Hack COVID-19, a competition to develop ideas for tackling pandemic-related challenges. **Gordon Rule, Annette Vincent** and **Mohammad Hammoud** contributed their expertise during the four-day event. Hack COVID-19 was a Qatar Business Incubation Center initiative with sponsorship from Qatar Development Bank.

Productive and balanced remote teams

Cecile le Roux penned two articles for the local community on building happy, productive remote teams and balancing blended roles.

Saving the economy from the coronavirus

Agustín Indaco analyzed measures that different governments enacted in the wake of the COVID-19 pandemic, and offered recommendations for a swift economic recovery.

Teaching and learning in online mode

Serkan Akgüç shared a professor’s perspective of online learning at a webinar organized by the U.S. Embassy in Qatar for students who were beginning their studies in the United States.

Doha Debates

Business administration student **Joud Ghalayini** was a panel member for the inaugural #DearWorld Live, a new initiative by Qatar Foundation’s Doha Debates. The interactive livestream series is a venue for experts and young leaders to discuss the issues that face a post-pandemic world.

Computer Science

Computer science students at CMU-Q are studying the world-class curriculum of Carnegie Mellon's School of Computer Science, learning both the theoretical foundations and the practical knowledge to push the frontiers of the field and make a real-world impact.

“Coming to CMU-Q was a dream come true. I've always been obsessed with computers and technology, and here I was able to feed my passion.”

Talal Al-Haddad
Computer Science 2013
Graduate student, Artificial Intelligence, Warsaw University of Technology

Robotics Institute Summer Scholar program
Maimoon Siddiqui was selected for RISS, an intensive summer research program at Carnegie Mellon where she assisted on applications of computer vision to sense facial expressions.

First prize, QCRI project
Zaryab Shahzaib secured first prize for his project on graph theory for predicting flight faults during Qatar Computing Research Institute's 2019 summer internship program.

First place, Oman programming competition

A CMU-Q student team won the top prize at the Oman Collegiate Programming Contest (OCPC). **Mohammed Nurul Hoque**, **Muhammad Ahmad Khan** and **Zaryab Shahzaib** placed first among the nearly 30 teams who competed. A second CMU-Q team, which included **Keivin Isufaj**, **Swapnendu Sanyal** and **Omar Sinan**, placed fourth.

Second place, Qatar Sports Tech Hackathon

Keivin Isufaj placed second at the Qatar Sports Tech Hackathon, along with **Johanne Medina** and **Mohamed Amara**, both students in the Hamad Bin Khalifa University computer engineering program. The team created an app to improve the fan experience during World Cup 2022.

Google Hash Code hub in Qatar

For the third consecutive year, CMU-Q hosted the only Google Hash Code hub in Qatar. The programming competition is open to teams around the world. This year, the CMU-Q hub hosted eight teams, including two from Qatar University.

First place, Capture the Flag

Mohammed Yusuf Ansari, **Mohammed Nurul Hoque**, **Akhyar Kamili** and **Muhammad Ahmad Khan** took first place in the Capture the Flag cyber challenge featured during Qatar University's Cyber Week.

Third graduate in computational biology

Raghid Bsar became the third student in the history of the Qatar campus to graduate with a degree in computational biology. Following the School of Computer Science curriculum, the interdisciplinary program includes core coursework in computer science, biology, science and mathematics.

“I chose CMU-Q because it was one of the few universities with a computational biology program. I didn't realize that I would study both computer science and biology on such a deep level.”

Raghid Bsar
Computational Biology 2020

Information Systems

information systems
courses

101
students

223
alumni

Carnegie Mellon announced a new information systems curriculum, offered as a joint program from the Dietrich College of Humanities and Social Sciences and the Heinz College of Information Systems and Public Policy. The new curriculum equips students to lead change at the interfaces of technology, organizations and society.

Tech startup winners

Students in the tech startup course presented their final projects to a judging panel from Abulssa Holdings, E-Butler, Ooredoo, and Qatar Science and Technology Park (QSTP). The top team, which included **Yasmin Abdelaal, Zainab Akhtar** and **Aya El-Sakka**, won a spot in the QSTP XLR8 program.

Social commerce entrepreneurship

Information Systems junior **Reem Al-Haddad** created an Instagram khanfarooosh bakery as part of a fall 2019 course in e-commerce. When the course ended, she transformed the class project into a busy social commerce business, @BakedByReem.

GIS Technology Day 2019, Special Award

Chadi Aoun received a special award for his presentation, "GIS for emergent challenges: Empowering future information systems leaders," at the 2019 GIS Technology Day, hosted by the Center for Geographic Information Systems in Qatar.

“The most important things I carry from CMU are the skills of working smart, putting the right effort in the right place, and time management.”

Omar Shaath

Information Systems 2011
Project Specialist

Ministry of Transport and Communications

Doha Oasis for Innovation

Information systems sophomore **Mohammed Al-Qassabi** was awarded the gold medal in the individual category at the Doha Oasis for Innovation. Al-Qassabi designed a prototype that helps soccer referees detect offside players during matches.

Nursing Informatics Symposium

Anis Charfi moderated the panel on cybersecurity in health care at Hamad Medical Corporation's third annual Nursing Informatics Symposium.

President, AIS

Nui Vatanasakdakul was elected president of the Association of Information Systems, Qatar Chapter. Her term runs until 2022.

Arts and Sciences

26
faculty
members

72
courses offered
in 13 disciplines

Students in every program learn to draw connections and work effectively outside their majors through study in the arts and sciences, including required courses such as chemistry, English, math and physics, and electives in a wide variety of disciplines.

Top spots, QU Math Competition

At the Qatar University Math Competition, first-year student **Igli Mlloja** placed first in the men's category, with **Keivin Isufaj** and **Fangjiao Xu** placing second in the men's and women's categories, respectively. **Swapnendu Sanyal** rounded out the men's top three. **Niraj Khare** served as faculty advisor.

WISE report on language policy

Dudley Reynolds shared the findings of his research report, Language Policy in Globalized Contexts, at the WISE Summit 2019. The report, which was prepared in collaboration with WISE, calls on education systems around the world to examine how they support their communities' language resources.

QU Math Day

Hasan Dermirkoparan delivered a presentation at Qatar University's Math Day on the impact of the Pi Day Mathematics Competition on high school students in Qatar. Demirkoparan and **Zealelem Yilma** created the competition in 2016.

CMU-Q Library

The library is an essential resource for both study and research. Housing a large collection of print volumes, databases, e-journals and ebooks, the library also coordinates textbooks for all courses at CMU-Q.

When the CMU-Q building closed due to the pandemic, the library shifted to online mode, ensuring students and researchers had continued access to textbooks and information through digital sources.

Gloriana St. Clair Lecture Series on 21st Century Librarianship

CMU-Q hosted **Megan Lotts**, the art librarian from Rutgers University, for a lecture on fostering a culture of creativity and play in libraries. Lotts also delivered workshops at both CMU-Q and the Qatar National Library.

PR Xchange Award

The CMU-Q library won the PR Xchange Award from the Library Leadership and Management Association. Library director **Teresa MacGregor**, along with CMU's **Jill Chisnell** and **Heidi Wiren Bartlett**, created the winning campaign to raise awareness of the many research databases available from the University Libraries.

Farewell to Lansiné Kaba

Historian **Lansiné Kaba** retired after spending more than a decade teaching at CMU-Q. The author of several books on African and Muslim history, Kaba joined the faculty of the Qatar campus in 2009 and was named the Thomas M. Kerr Distinguished Career Professor of History in 2017.

Interdisciplinary Collaboration

Students and faculty members at CMU-Q are encouraged to reach beyond traditional program boundaries to solve problems. Interdisciplinary projects and classes encourage creativity, innovative problem solving and teamwork.

The Arts in Qatar

Jennifer Bruder, Zelealem Yilma and **Benjamin Reilly** created a new interdisciplinary course that examines the arts in Qatar. Students explored Qatari literature, film, and art exhibits as a springboard for learning more about how cultural institutions reflect Qatari identity.

iGEM Bronze Achievement

A student team created a fast, inexpensive method to test for carriers of genetic diseases like sickle cell anemia and cystic fibrosis. The team presented the kit at the 2019 International Genetically Engineered Machines (iGEM) competition held in Boston, where they were recognized with a Bronze Achievement award.

The project brought together biological sciences students **Dona Ferdinando, Dania Kaddoura, Muhammad Nahin Khan, Weilin Li, and Reema Subeh**, computer science students **Đorđe Popović, Radu Revutchi, Rameez Saiyid** and **Omar Sinan**, and information systems students **Jinan Azem** and **Andrew Edward**.

Creative video contest winner

Reem Al-Haddad, a junior in the Information Systems Program, created two original videos for a Snapchat contest for best creative video hosted by social media influencer **Mohammad Al-Dosari**. The two videos tied for first place in the contest.

Rhetoric, Science and the Public Sphere

Kira Dreher redesigned a course where students investigate how science is communicated in the public sphere. The course was offered for the first time in the spring semester, which provided students with the extraordinary opportunity to examine in real time how science is used to frame public health decisions with respect to the pandemic.

Statistical Consulting Center

Taeyong Park and **Daniel Phelps** created the Statistical Consulting Center to offer support to CMU-Q faculty, staff and students from all disciplines on research design, psychometrics and statistical modeling and analysis.

Community Engagement

We have strong, living connections to the global Carnegie Mellon community, Qatar Foundation, and our strategic partners in government and industry. These collaborations offer rich learning opportunities for our students as we help build Qatar's knowledge economy.

The Dean's Lecture Series

58

Dean's Lectures
since 2011

One of our central roles as a university is to serve as a knowledge hub for the community, initiating the discussions that move society forward.

“ Education City is an open space for learning and discovery, and we want the community to come and experience it. ”

- Qatar Biomedical Research Institute

Qatar IPv6 Taskforce

CMU-Q is part of the IPv6 Taskforce, appointed by the Communications Regulatory Authority to guide the adoption of IPv6 in Qatar. CMU-Q and Qatar University prepared the plan to upgrade the government network, and CMU-Q's **Khalid Warraich** presented the IPv6 deployment update at QITCOM 2019.

Hamad Bin Jassim Center for K-12 Computer Science Education

In 2017, CMU-Q and Jassim and Hamad Bin Jassim Charitable Foundation joined forces to create the Hamad bin Jassim Center for K-12 Computer Science Education. The center's goal is to introduce school-aged children in Qatar to concepts and career paths in computer science.

Minecraft and Minecraft Virtual

Taking place more than a dozen times each academic year, Minecraft one-day workshops have introduced more than 5,000 students in Qatar to computer science. In the wake of the COVID-19 pandemic, the team created Minecraft Virtual to engage students remotely.

Alice Middle East

Alice educational software was originally developed at CMU and adapted for Qatar with support from the Qatar National Research Fund. In partnership with the Ministry of Education and Higher Education, Alice Middle East is now part of the information communication technology curriculum at Qatar government schools.

In 2019-2020, the Computing Hub provided teaching training for the Alice computing curriculum to roughly 120 middle school teachers. Nearly 5,000 students have benefited from the program to date.

At the annual Alice Middle East Programming Competition, more than 100 students presented digital animations and games, with two teams from Al Khor International School taking first place. Abulssa Holdings generously provided the prizes for the competition.

Computing Hub

The Computing Hub is a new initiative to inspire interest and curiosity in computer science in K-12 students in Qatar. Targeting both students and educators, the Computing Hub provides a central place for learning, exploring, creating and collaborating in the area of computer science. Alice Middle East is an essential part of the Computing Hub.

“ Computing skills are fundamental for children who will spend their careers in a knowledge economy. We encourage all young people in Qatar to explore the world of programming and computing. ”

Saeed Al-Hajri
Board Member and CEO
Jassim and Hamad Bin Jassim
Charitable Foundation

Collaborations with Qatar Foundation

We are an integral part of Qatar Foundation, and our students, faculty and staff work with entities across Education City to build a hub of learning, cooperation and discovery.

Park and Plant

CMU-Q celebrated Sustainability Week by participating in the Park and Plant Initiative. Members of the CMU-Q community helped plant 109 trees around the building as part of QF's multi-phase plan to restore Qatar's rich indigenous landscape.

I AM QF

CMU-Q showcased two student-led projects at the Qatar Foundation community event, I AM QF: the interdisciplinary research team, iGEM, and the CarnegieApps Hackathon team.

Darb Al Saai

To celebrate Qatar National Day, CMU-Q created an interactive activity for football fans to explore the analytics of their favorite teams at Darb Al Saai. Researchers built the sports analytics activity using Q-Smartlab, a visual dashboard for big data that was created by CMU-Q as a teaching tool for studying financial markets.

Rimads startup

Mohammad Hammoud launched a technology startup, Rimads, at Qatar Science and Technology Park (QSTP). Rimads is building an end-to-end, AI-based medical ecosystem that aims to transform the health care experience.

Qatar Green Building Council

Chadi Aoun was part of a Qatar Green Building Council webinar to discuss how the COVID-19 pandemic will affect climate change. Aoun is an expert in sustainability and smart cities.

Awareness walk

CMU-Q was a co-organizer of the Breast Cancer and Domestic Violence Awareness Walk along with QF Community Development, Qatar University, the QF partner universities, QF Protection and Social Rehabilitation Center (AMAN) and Sidra Medicine.

Doha Debates

Doha Debates, in partnership with UNESCO, hosted a panel discussion at CMU-Q titled, "Can technology be used to make peace."

Health and Wellness Fair

Education City students, faculty and staff explored Qatar's resources for well-being at the annual Health and Wellness Fair, held at CMU-Q. The event, which featured 34 organizations that cover different aspects of health and wellness, is organized collaboratively by CMU-Q, the partner universities and Qatar Foundation.

QF Partners in Education

As an educational institution, we are in a unique position to influence and help develop the ways that people learn in Qatar. Through targeted programs, CMU-Q is enhancing learning opportunities in key areas.

Doha Learning Days

CMU-Q's **Jennifer Bruder**, **Faten El Ayache** and **Dudley Reynolds** were invited to present workshops at Doha Learning Days. The learning festival was held as part of Qatar Foundation's WISE Summit 2019.

Visit to CMU main campus

Vice chairperson and CEO of Qatar Foundation **Her Excellency Sheikha Hind Bint Hamad Al Thani** visited CMU's main campus in Pittsburgh, where she participated in a roundtable discussion on artificial intelligence and toured academic centers focused on entrepreneurship, innovation, and teaching excellence.

Pre-University Education

Annette Vincent was appointed to the board of advisors for Qatar Academy for Science and Technology (QAST). **Cecile le Roux** was appointed to the board of advisors for Academyti.

Qatar Faculty Forum

At the Qatar Faculty Forum, **Taeyong Park** discussed his statistical research into fear, information seeking, and the vote, and **Teresa MacGregor** presented her research on the impact of training on e-textbook platform preference.

Renad Academy

Students in **Jennifer Bruder**'s class on autism visited Qatar Foundation's Renad Academy to gain a deeper understanding of autism in elementary school-aged children.

World Mathematics Team Championships

Zealelem Yilma coached a team of high school students from several Qatar Foundation schools for the World Mathematics Team Championship in South Korea. Two of the team members achieved special honors.

We are proud to be part of the Carnegie Mellon global community, connected to the scholarship, research, spirit and culture that defines Carnegie Mellon worldwide.

President's visit

Farnam Jahanian, the president of Carnegie Mellon University, visited the Qatar campus to meet with alumni, students, faculty and staff. At a special reception for alumni and community leaders, he outlined his vision for reimagining the student experience both within and beyond the classroom. While in Qatar, President Jahanian also met with **His Excellency Sheikh Dr. Khalid Bin Thani Bin Abdullah Al Thani**, chairman of Ezzan Holding Group.

Wimmer Faculty Fellow

Nesrine Affara was named one of six Wimmer Faculty Fellows for the 2020-21 academic year. Wimmer fellowships are offered by CMU's Eberly Center for Teaching Excellence and Educational Innovation to encourage junior faculty members to explore the way they teach.

Finalists, CMU Teaching Innovation Award

Silvia Pessoa, Maria Pia Gomez-Laich, Cecile le Roux, Divakaran Liginlal and **Thomas Mitchell** developed a process for improving student writing in information systems, organizational behavior and history.

Chadi Aoun and **Gordon Rule** created an innovative approach to the PROPEL class.

Washington Semester Program

Aisha Al-Ali, Abraham Farooqui, Naram Hajjar and **Auguste Piromalli** became the first students from the Qatar campus to participate in the Washington Semester Program, offered by CMU's Institute for Politics and Strategy.

A. Nico Habermann Distinguished Lecture

Srinivasan Seshan spoke to CMU-Q about the past, present and future of delivering multimedia on the internet. Seshan is the department head for CMU's Computer Science Department, and the Joseph F. Traub Professor.

Distinguished lectures in computer science are named in honor of **A. Nico Habermann**, head of the Computer Science Department at Carnegie Mellon University from 1980 to 1988 and founding dean of the School of Computer Science.

John Patrick Crecine Distinguished Lecture

Jeff Gill spoke to CMU-Q on the present and future of data science. Gill is a distinguished professor in the Department of Government and a professor in the Department of Mathematics and Statistics at American University.

Distinguished lectures in arts and sciences are named in honor of **John Patrick Crecine**, dean of the College of Humanities and Social Sciences at Carnegie Mellon University from 1976 to 1983.

Student Experience

Our students go through a transformation over the four years of their undergraduate education. We encourage them to come together as a community of learners, explore their interests, and develop the skills they will need in their careers.

A Strong, Connected Community

Our campus is a unique place to study: the students, alumni, faculty and staff form a close-knit, diverse community that is enthusiastic, supportive and energizing.

New student orientation

In August 2019, CMU-Q welcomed the new class for a four-day orientation experience to introduce first-year students to the campus, and to one another. Orientation is organized by a team of current CMU-Q students and includes an intensive introduction to the resources, expectations, and academic areas at CMU-Q.

Tarnival

Carnegie Mellon's Tartan carnival, better known as Tarnival, took place on the Education City Green Spine in October. A long-standing tradition at CMU-Q, Tarnival brings together students, faculty, alumni and staff for an evening of fun, games and prizes.

Thanksgiving lunch

CMU-Q celebrated Thanksgiving together at a lunch for students, staff and faculty. The November holiday is a tradition in the U.S. and an opportunity to express gratitude, kindness and the joy of community.

Hackathon 2020

The interdisciplinary team of **Maryam Al-Darwish, Haya Al-Kaabi, Haya Al-Kuwari** and **Buthayna Almulla** took the top prize at the 2020 Hackathon competition. There were 19 teams at the eighth edition of the student-led competition, including innovators from CMU-Q, College of the North Atlantic – Qatar, Qatar University and Texas A&M University at Qatar.

“ We felt that these initiatives were important so that our international students, who were residing in the dorms, felt supported and connected with their CMU-Q community. ”

Atorina Benjamin
Psychologist
CMU-Q Student Affairs

Pandemic food pantry

As Education City made the shift to remote learning, CMU-Q put important supports in place for international students. CMU-Q assigned a Student Affairs staff member to each international student, and provided regular care packages. CMU-Q also stocked a food pantry in each dorm, which was available to all Education City international students.

Art Club exhibition

Co-founders of the Art Club, **Khulood Al-Haroon** and **Noora Al-Shukri**, organized a two-week exhibition of CMU-Q artwork at the Qatar Foundation Student Center. The exhibition included paintings, poetry and photographs submitted by members of the CMU-Q community, including students from all majors.

Peer-to-Peer Learning

At CMU-Q, learning continues beyond the classroom. Discovery and exploration is at the heart of the CMU-Q experience, and students have many opportunities to share their knowledge, skills and talent with their peers.

Peer Health Advocates

Peer Health Advocates (PHA) is a peer-to-peer organization that increases awareness of health and wellness in the CMU-Q community. Through events and awareness campaigns, PHA students promote an open exchange of information and ideas, while developing leadership and communication skills.

10
StuCos

96
undergraduate
course assistants

34
nominations for
Outstanding Course
Assistant

Undergraduate course assistants

Course assistants are an essential part of the learning team at CMU-Q. Undergraduates who have excelled in specific courses can become a course assistant in later years, working with faculty and the Academic Resource Center to support student learning. There were 96 course assistants during the fall and spring academic sessions.

Outstanding Course Assistant

Each year, the Outstanding Course Assistant award recognizes a student who has made an exceptional contribution to student learning. This year, **Swapnendu Sanyal**, a senior in computer science, received the award.

Language Bridges

Language Bridges is a student-led organization where CMU-Q students teach English to QF service workers. For many students, participating in Language Bridges is an introduction to teaching and sharing knowledge.

StuCo program

The Student Courses (StuCo) program offers students the opportunity to design and deliver a unique course at CMU-Q. Students who are selected StuCo receive training and resources, including guidance on course design, syllabus writing, and teaching.

- ABCD: Any Body Can Dance
- Controversies: Think, Speak, and Listen
- Conversational Arabic for Non-Native Speakers
- Creative Expression through Japanese Culture
- Drawing and Surrealism
- Introduction to Ballroom Dancing
- Introduction to Improvisational Comedy
- Introduction to Pakistan and its Culture
- Introduction to Qur'an Recitation
- Qur'anic Stories

Leadership and Career Development

Internship Showcase

Internship Showcase 2019 brought together students from all years and programs of study to learn how internships can help put knowledge and learning into practice. **Fahad Salah Bahzad, Imane Bendou, Sondoss Hassan** and **Đorđe Popović** shared how interning helped to solidify the concepts they learned in the classroom.

Arabic language debate

A team of CMU-Q students placed third at the Asian Arabic Language Debating Championship held in Kuala Lumpur, Malaysia. **Rahaf Abutarbush, Ammar Karkour** and **Abdullah Shaar** were among nearly 50 teams from across Asia participating in the tournament.

Career networking

CMU-Q hosted several networking events for students to meet and learn from employers in discipline-specific industries. Bio Career Day included organizations who hire students and graduates in the biological sciences, and Professional Services Career Day featured management consulting companies. The annual Careers Platform 2019, Technology Edition, hosted 22 organizations.

Student Leadership Awards

Each year, CMU-Q acknowledges graduating seniors who have excelled in the areas of leadership, service and community building.

Shift to virtual career development

As the pandemic shifted the outlook for summer internships and employment, CMU-Q, along with the QF partner universities, organized the first career-focused remote event titled, "Career opportunities and challenges in times of COVID-19." Nearly 130 students joined the virtual event to learn about the hiring landscape in Doha.

Research

At its heart, research at Carnegie Mellon looks for practical answers to complex, real world problems. In this spirit, we at the Qatar campus encourage our faculty members and students to explore their fields and engage in projects that will have an impact.

The Year in Faculty Research

13
ongoing NPRP
grants

book
chapters

75
published
articles

51
conference
presentations and
invited talks

CMU-Q researchers are actively engaged with the international research community, leading or collaborating on a myriad of projects. Faculty members also contribute to the engines that drive international research, including academic publications, professional organizations, and conference organizers.

JISE Best Paper award

Silvia Pessoa, Maria Pia Gomez-Laich, Divakaran Liginlal, and Thomas Mitchell received the 2019 Best Paper award from the Journal of Information Systems Education (JISE). The paper is one of seven articles and 20 presentations to arise from SLATE-Q, a multi-year project called Scaffolding Literacy in Academic and Tertiary Environments in Qatar, which was funded by Qatar National Research Fund.

SmartTech '19 Research Outcome Seminar

Anis Charfi presented his work on Arabic author profiling for cyber security at the SmartTech '19 Research Outcome Seminar, hosted by Qatar National Research Fund.

New seed grants

- Cognition in context, **Jennifer Bruder**
- Understanding social, physical, and mental health and cognitive processes in the next generation of Qatar's leaders and influencers, **Lauren Burakowski**
- Unleashing the power of social commerce in the C2C platforms: A cross cultural analysis, **Nui Vatanasakdakul**

International research community collaborations

Khaled Harras was appointed associate editor for *IEEE Transactions on Mobile Computing*, a scholarly journal published by the IEEE Computer Society.

Kemal Oflazer served as senior program committee member for the 58th Annual Meeting of the Association for Computational Linguistics. He also served as area chair for the 2019 Conference on Empirical Methods in Natural Language Processing.

Saqib Razak served as advisor to the National Curriculum Committee for Pakistan's Ministry of Education and Professional Training, for the design of a national curriculum for middle school computer studies.

Benjamin Reilly was appointed to the editorial board of the *Journal of World History*.

Giselle Reis was the co-chair for the 2019 Proof Exchange for Theorem Proving in Brazil. She also served on the program committee for Tableaux 2019 in the UK and the 2020 Joint Workshop on Linearity in Logic and Computer Science and its Applications in France.

Ryan Riley was the technical program committee co-chair for the International Conference on Cyber Security for Emerging Technologies, hosted by Qatar University's KINDI Research Center.

Nui Vatanasakdakul served as the research track chair for the Green IS and Sustainability special interest group for the Americas Conference on Information Systems.

Ihab Younis was appointed an associate editor for *Frontiers in Oncology – Cancer Genetics*.

Linguistic map of Qatari dialects

Zeinab Ibrahim is leading a team to create an interactive linguistic map of Qatari dialects. The project was selected for QNRF's National Priorities Research Program. The team, which includes CMU-Q's **Houda Bouamor**, as well as researchers from Doha International Family Institute, Georgetown University in Qatar, and Qatar University, will map the variations of Qatari dialect and create a digital tool for exploring pronunciation, usage and expressions.

QNRF-funded Research Projects

For more than a decade, Carnegie Mellon University in Qatar has been proud to contribute to the Qatar National Vision 2030 through Qatar National Research Fund's National Priorities Research Program.

Student Research

Through research projects, students develop the skills of intellectual rigor and creative problem solving that are integral to their careers and future studies.

UREP project on attitudes toward Qatar wildlife

Four information systems students are researching Qatar residents' awareness and attitudes toward native wildlife species. The team of **Reem Al-Haddad, Sara Al-Hemaidi, Amal Al-Korbi** and **Almayasa Al-Naimi**, along with faculty advisors **Jennifer Bruder** and **Lauren Burakowski**, received a grant for the project from the QNRF's Undergraduate Research Experience Program.

Summer Undergraduate Research Apprenticeship

Nesrine Affara, Mohamed Bouaouina, Gordon Rule, Annette Vincent and **Ihab Younis** created a new opportunity to introduce students to research. Available to students in any major, SURA participants learn the basics of research design and work under the mentorship of a faculty researcher.

- Reem Al-Sayed
- Maryam Aslam
- Laila El-Beheiry
- Mariam El-Esnawy
- Maher Habboub
- Syeda Hira Hashmi
- Mohammed Tareef Sayed

Qatar Student-Initiated Undergraduate Research Program

The Qatar Student-Initiated Undergraduate Research Program offers support for students pursuing a research, scholarly or artistic project over the summer. In 2019, seven students were selected for QSIURP awards.

- Mariyam Amir
- Mohammad Shahmeer Ahmad
- Raghid Bsar
- Dona Ferdinando
- Mohammed Nurul Hoque
- Muhammad Nahin Khan
- Hari Krishna

Senior Honors theses

Sixteen graduating students in all five academic programs completed a senior honors thesis. The students presented their research at a virtual event for students, faculty, families and the wider community.

- Yasmin Abdelaal
- Alanood Al-Thani
- Haya Al-Kaabi
- Mohammed Yusuf Ansari
- Fahad Salah Bahzad
- Raghid Bsar

- Faiq Defiandry
- Aya El-Sakka
- Dona Ferdinando
- Mohammed Nurul Hoque
- Muhammad Nahin Khan
- Hanna Farooq Moazam

- Fatima Mustafawi
- Jize Ning
- Ayşe Haruka Açıkbaş
- Reema Subeh

“For some time now, these 16 graduating students have experienced one of the best feelings in research: to know something no one else in the world knows. Today, they will tell the world about their findings.”

Meeting of the Minds

Meeting of the Minds.

An experimental study of multi-stage retrieval systems
Computer Science

Characterization of recruitment, activation, and induction of naïve fibroblasts in a tumor-educated environment
Show project

ICTruly Human Life: Using technology to help low-income expat workers in Qatar achieve a truly human life.
Information Systems

Improved complement for two-way

Since 2007, Meeting of the Minds has been an annual opportunity for students to present their research work to the community. With pandemic restrictions preventing an in-person event, CMU-Q created meetingminds.qatar.cmu.edu, a new digital channel for students to share their projects.

Meeting of the Minds 2020 projects, by faculty advisor

Nesrine Affara

- Characterization of recruitment, activation, and induction of naïve fibroblasts in a tumor-educated environment, **Maha Al-Mulla**
- Profiling colorectal cancer cells and their interactions with fibroblasts in 3D spheroid cultures, **Joana Khatib**
- Comparative analysis of the role of the tumor cells in educating naïve fibroblasts into cancer-associated fibroblasts using 2D vs. 3D environments, **Ayşe Haruka Açıkbaş**

Mustafa Akan

- Measuring efficiency of Qatari public secondary boys schools outside Doha, **Shireen Ahmed, Fahad Salah Bahzad**
- Social welfare maximization for public transportation in Qatar, **Fahad Salah Bahzad**

Mohamed Bouaouina

- ECM effects on integrin-mediated signaling in breast cancer cells, **Sondoss Hassan**
- Machine learning-based method to identify coverslips on microscopy slides, **Abubaker Omer**

Anis Charfi

- Comparative study of NoSQL databases: Planning, modelling, implementation, management, **Mariyam Amir, Mohammad Shahmeer Ahmad**

Susan Hagan

- ICTruly Human Life: Using technology to help low-income expat workers in Qatar achieve a truly human life, **Fatima Mustafawi**

Mohammad Hammoud

- An experimental study of multi-stage retrieval systems, **Mohammed Yusuf Ansari**

Khaled Harras

- WebAssembly for agile offloading in edge computing, **Mohammed Nurul Hoque**

Christos Kapoutsis

- Improved complement for two-way alternating automata, **Mohammad Zakzok**

Cecile le Roux

- Student achievement motivation at CMU-Q: Investigating the types of academic goals, reasons for goal pursuit, and goal-reason combinations that relate to academic achievement behavior for undergraduate university students in Qatar's branch campus of CMU, **Alanood Al-Thani**

Cecile le Roux, Marisella Rodriguez, Michael Melville

- Can we support students to think independently and develop reflective judgement?, **Mariyam Amir**

Selma Limam Mansar

- Examining the relationships and patterns in patient-initiated vlogs and their effect on vloggers' wellbeing, **Yasmin Abdelaal**
- Facilitating medical refills at the age of drones, **Aya El-Sakka**

“At its essence, research is about collaboration. The Meeting of the Minds website reflects the Carnegie Mellon culture of mentoring, teamwork and innovation, especially in challenging times.”

Michael Trick

Giselle Reis

- Sequoia: A playground for logicians, meta-properties, **Zan Naeem, Mohammad Hashim**
- Sequoia: A playground for logicians, proof tree building and unification, **Zan Naeem, Mohammad Hashim**
- Classical and constructive logic interactive theorem prover, **Samar Rahmouni**

Nui Vatanasakdakul

- Augmented reality and user satisfaction in leisure tourism, **Sara Al-Mohanadi, Reem Al-Haddad**
- Factors affecting the adoption of social commerce in the Indonesian retail industry: A consumer's perspective, **Faiq Defiandry**

Annette Vincent

- Nitrogen fertilizer - go or foe?, **Hissa Al-Fakhri, Mariam El-Esnawy, Reem Al-Sayed**
- L-leucine, a potential drug to inhibit cancer metastasis, **Weilin Li, Joana Khatib**

Zealelem Yilma

- Eigencentality in bipartite graphs, **Mohammed Nurul Hoque**

Ihab Younis

- Investigating the alternative splicing patterns of RNA binding proteins (RBPs) in breast cancer, **Mariam El-Esnawy**
- Characterization of minor intron and minor intron-containing genes, **Beom Jin Park**

Carnegie Mellon University Qatar

Our Stories

Throughout the year, and through a variety of media channels, we share our achievements and milestones with the Qatar community. We believe the stories of the CMU-Q community are part of the larger story of Qatar's transformation into a knowledge-based economy. We also hope to inspire a new generation of students to imagine and deliver work that matters, both to Qatar and the world.

Public Relations

Virtual events

With the pandemic restrictions on in-person events beginning in March, CMU-Q turned to virtual events to celebrate the community's many achievements. CMU-Q hosted 24 virtual events as the academic year wrapped up.

Collaboration with Qatar Foundation

As a Qatar Foundation partner university, CMU-Q is proud to work with QF to showcase the achievements of our faculty and students. In the past academic year, CMU-Q participated in nine interviews or story collaborations with QF.

About Us

For more than a century, Carnegie Mellon University has challenged the curious and passionate to imagine and deliver work that matters. A private, top-ranked and global university, Carnegie Mellon sets its own course with programs that inspire creativity and collaboration.

In 2004, Carnegie Mellon and Qatar Foundation began a partnership to deliver select programs that will contribute to the long-term development of Qatar. Today, Carnegie Mellon Qatar offers undergraduate programs in biological sciences, business administration, computer science, and information systems. More than 400 students from 52 countries call Carnegie Mellon Qatar home.

Graduates from CMU-Q are pursuing their careers in top organizations within Qatar and around the world, and many have started their own entrepreneurial ventures. With 13 graduating classes, the total number of alumni is nearly 1000.
